

Primary Trauma Care – Provider’s Course at Patel Hospital Karachi, Pakistan

Introduction

Patel Hospital is a not for profit organization. Its vision and mission is to provide quality health care to all whether the patients can afford or not. All non affording patients are supported through support fund and zakat fund (Islamic obligatory charity). Patel Hospital was established in 1997 in Karachi by the renowned philanthropist of Bantava Memon community social worker Mr. Abdul Ghaffar Abdul Rehman alias Mithu Patel. Over the years Patel hospital has become the largest hospital in Gulshan-e-Iqbal (Population 650,000) one of the largest residential and commercial neighborhood in Karachi.

Course Summary

Patel hospital has taken the initiative to hold PTC provider’s course on a quarterly basis. So in line with this initiative, a two day PTC provider course was conducted at Patel Hospital, Karachi on 10th and 11th December 2011. The course was organized in liaison between PTC Sind and faculty at Patel Hospital.

Feedback and Results

The course went smoothly over two day with ample time for discussions. The faculty and participants enjoyed the friendly interactive environment.

Feedback from the participants was generally good and really appreciated the dedication and interaction of the faculty. They all showed interest in having more scenario based teaching which could help them more in common situation they encountered in their respective departments. Many participants expressed their desire to attend the Instructors course and also to join the faculty in the upcoming courses.

The average pre course MCQs result was 57.5% and post course MCQs 82.5%. All the participants improved upon their results in the later test.

The Medical Director of Patel hospital Dr.Mazhar Nizam took personal interest in the proceedings and visited the course at many occasions. He expressed his pleasure in the way the course was conducted and pledged his support to enable us to regularly conduct the course at Patel Hospital.

Regards

Dr Mohsin-e-Azam
Course Director
