PTC COURSE REPORT
KHYBER MEDICAL COLLEGE
PESHAWAR. 19-20th DECEMBER 2006

Primary trauma care course was organized at Khyber Medical College Peshawar by the PTC faculty at Hayat Abad Medical Complex, Peshawar on 19-20 Dec 2006. The number of students who wanted to participate in the course were too many but as per the PTC protocol, only twenty students could be registered. There was great enthusiasm since the announcement of the course that persisted till the end.

S. NO	Names
1	Samiullah Khan
2	Muhammad Abdur Rauf
3	Imran Khan
4	Siddique Akbar
5	Maria Usman Khan
6	Saadia Haroon Durrani
7	Aisha Masood
8	Abid Ali Anwaar
9	Muneer Khan
10	Salma Rizvi
11	Saadia Rizvi
12	Munazza Khanzada
13	Alamgir Khan
14	Sosan Andaleeb
15	Jawad-ul-Qamar
16	Syed Hamid Habib
17	Haider Khan
18	Sumayyah Amin
19	Shandana Qamar
20	Sara Shinwari

Faculty members included the following.

Prof Aziz Wazir
Dr. M. Arif Khan
Dr. Alam Zeb Durrani
Dr. Fayyaz Qureshi
Dr. Masood.

Course started about 30 minutes late due to the class of the students. Introductory remarks were given by Prof Aziz Wazir, followed by Introduction to PTC by Dr. Arif Khan, and than a short speech by Prof. Fazal Ahmad, Principal KMC, who was the chief guest on the occasion.

Format of the PTC course was fully followed, consisting of lectures, scenarios and skill stations. However skill stations were done on second day instead of 1st day due to the

unavailability of chest cages and gullets on first day. Following was the schedule of the course.

19th December 2006

08:30-08:45	Introduction and MCQ	Prof. Aziz Wazir
08:45-09:10	Introduction to PTC	Dr. M Arif Khan

13:00-14:00	Scenarios	All
1400 Approx	Multiple choice paper, Feedback and discussion,	Dr. Alam Zeb Durrani
	Certificate distribution + Lunch	

The course went very smoothly. All the participants participated actively throughout the course, particularly in the practical part of it. Lunch and Tea arrangement was made by the college administration. Disposables like chest tubes, i.v lines, chest cages, gullets etc were arranged by the faculty from the course fee. During the feedback session, Principal KMC was present and he was very impressed with the enthusiasm of the students and the way they were expressing their thoughts about the course. He requested the faculty that more such courses should be organized for the students and also assured his full administrative support for future such course. Most of the students expressed their view that this course should be made mandatory for all the students of final year MBBS.

Course certificates are usually distributed at the end of the course. However this time it could not be done due the unavailability of the certificates from Gandahara University. The person in charge for the certificates in Gandahara has gone for "Hajj". These certificates will be distributed at a later date when they are available to us.

It was the 1st such course for medical students in NWFP and was a new experience for the faculty. Following were the observation made by the faculty members.

1. Interest of the students was very encouraging, more than the participants of any of our other courses for the doctors conducted so far.
2. The students had enough back ground knowledge to understand the contents of the course. However there were deficiencies in the practical aspect of it.
3. Students learned and practiced scenarios well and we did not feel any difference between them and doctors.
4. Students asked many more questions than the doctors usually do at the end of the lectures. Most of these questions were relevant; however some of the questions reflected their lack of practical experience.

At the end, most of the faculty members thought that these courses should continue for the students. However, one member thought that it's premature for them to have this course and that the students should be registered in the course only after they become doctors and start house job. It was decided that the issue should be raised and discussed in the upcoming Lahore conference.

Regards

Dr. M. Arif Khan,
PTC Faculty member,
Hayat Abad Medical Complex,
Peshawar.
