

## **SUMMARY OF PTC 2-1 LIMA PERU NOVEMBER 20-22 2015**

### **1-PURPOSE OF THE VISIT**

Dra. Wieslava de Pawlikowski a Plastic Surgeon in Lima Peru in charge of the International Contact Unit at the INSN (Instituto Nacional de Salud del Niño), in Lima, Perú, contacted me in mid september 2015 to ask for the Trauma Course that I was working with for several years to introduce it in her Hospital. I took the opportunity to present the PTC proyect to the Directors of the INSN Hospital in Lima while visiting the CLASA Congress in Lima Perú, on September 22 - 2015, and after my DEMO presentation, the Hospital authorities decided to set the date for the launching of PTC 2-1 in Lima Peru , at the INSN Hospital in November 20-22, 2015.

### **2-EXECUTIVE SUMMARY**

Dr. Juan Carlos Duarte, Chairman of PTC-LA accepted the proposal from INSN and appointed myself as the General Coordinator of this 2-1 PTC in Lima Perú.

### **3-KEY PERSONS IN PLANNING**

Dr. Tapia, General Director of the INSN in Lima, Perú, was the person who decided that PTC will be a reality in Lima after de DEMO in September, and appointed Dr. Carlos Mora (chairman of emergency unit INSN), Dr. Juan José Marroquin and Dr. Eduardo latorre, as General Coordinators of this PTC 2-1.

### **4-PROFESIONAL ASPECTS OF THE VISIT**

For the first time in 14 years of running PTC in LA we could realize that PTC in Lima would be directed only to physicians related to pediatrics and eventually the new 8 PTC instructors would be from the same institution, the INSN Lima.

### **5-PARTICIPANTS**

All participants, on day 1 and 2 then the day 3 instructor's course were either pediatricians, pediatric Intensivists, residents of pediatrics, pediatric Anaesthesiologists, pediatric surgeons and one paediatric surgeon in training.

### **6-INSTRUCTORS OF PTC 2-1 IN LIMA 2015**

Chairman of PTC-LA, Dr. Juan Carlos Duarte, Venezuela  
Dr. Juan Pablo Ilic, Chile  
Dr. Alberto Laporte, Chile  
Dr. Roberto Lopez, Paraguay  
Dr. Oscar Gonzalez Allen, Paraguay (General Coordinator)

### **7-DETAILS OF THE ACTIVITIES**

After our arrival to Lima airport a transport provided by the local organizers transported us to the appointed Hotel, The ARIOSTO Hotel in Lima, quite far away from the INSN. After visiting the INSN that afternoon, November 19, we could meet the organizers locally and visit the premises at the third floor of the emergency area of the INSN where PTC 2-1 would take place the day after. After

visiting that particular area we could appreciate how CLEAN they keep their Hospital, half new, half old building and in total they have 850 beds available at the INSN for all pediatric specialities.

## **8- OTHER ACTIVITIES**

Due to the fact that the Hotel was so far from the INSN we did not have the chance to get together with the local organizers during our stay in Lima, but on the other hand we all instructors, 5 of us, visitors, could have dinner on local excellent restaurants on day 1,2 and 3.

## **9-MEDIA COVERAGE**

We did not observe any media coverage for this PTC 2-1 in Lima.

## **10-CONTENTS OF THE COURSE ON DAYS 1 AND 2**

The usual basic PTC of 2 days took place without any problems, everything was set for that purpose at the third floor Emergency area of INSN.

### **11- Day 1**

iOpening and Introduction of PTC

No local trauma situation was presented

Test

ABCDE of Trauma

Airway and breathing

Circulation

COFFEE

Thoracic trauma

Workshops

-Log Roll

DISASTERS

Demostration of primary and secondary survey by instructors, VIDEO, FTS,Chile.

INDIVIDUAL MOULAGE

TEST 2

CLOSING OF THE BASIC COURSE

Day 3: Instructors PTC day for 8 out of 22 participants.

### **13-EVALUATION AND RELEVANCE OF THE VISIT TO LIMA**

It was very unusual but important to realize for the first time in a visiting country that all participants were of the same medical field, they all were Pediatricians at various specialities. And the importance of the Director of the INSN supporting himself the growth of future PTC courses in Peru.

### **14-EVALUATION FORMS**

All of them available during the 3 day course. Most of the sessions were rated 4 / 5. The favorites ones were pleural drainage and moulages.

### **15-SUMMARY OF TEST SCORES DURING THE 2 DAY COURSE**

On day 1, the average score was 21-30

On day 2, the average was 26-30, showing the usual improvement during the course specially after the hands on on workshops on both days.

### **16- CONTENT OF THE INSTRUCTORS COURSE ON DAY 3**

Introduction

How adults learn

Questions

Feedback

#### **FIRST PRESENTATIONS BY 8 INSTRUCTORS**

Conferences

Discussion groups

Teaching a skill

Clinical scenarios

- 8-Pamela Yesquen Salcedo, Pediatric resident of 3rd year

## **18-VISITING PTC-LA INSTRUCTORS**

- 1- Dr.Juan Carlos Duarte, Chairman PTC-LA,Venezuela
- 2-Dr.Juan Pablo Ilic, President FTS Chile
- 3-Dr.Alberto Laporte, Chile
- 4-Dr.Roberto Lopez,Paraguay
- 5-Dr.Oscar Gonzalez Allen,Paraguay (Lima PTC 2-1,2015 General Coordinator)

The evaluation forms were fully completed by participants with comments taken by visiting instructors to evaluate the courses.

## **COMMENTS**

We believe that this unusual PTC 2-1 in Lima for only Pediatricians will be important for the future of PTC in Perú, mainly due to the back up from the Director general of the INSN and the experience on the field of the new 8 instructors. We could help in future courses again but basically they are capable of running their own PTC courses locally.

## **ACKNOWLEDGMENTS**

Our special thanks to Dra.Wieslava de Pawlikowski who first met us in Lima in September setting the bases for the launching of PTC in Lima, Perú.

To the Director general of INSN Lima, Dr.Tapia

To the 3 local organizers, Dr.Mora.Dr.Marroquin and Dr.Latorre

To all 22 participants on basic PTC

To the 8 new PTC Instructors in Peru

And special thanaks to our Chairman of PTC-LA, Dr.Juan Carlos Duarte for trusting me again in organizing a new course in a new country and a very special notes on my instructors from Chile,Dr.Ilic and Dr.Laporte, and from paraguay Dr.Lopez.

Finally after our Lima PTC 2-1 experience we firmly believe that PTC in Perú is in very good hands and soon in early 2016 we would see the first courses locally organized by the 8 new peruvian instructors.

This is my personal review and comments on this great PTC 2-1 in Lima Perú,

***Dr.Oscar Gonzalez Allen***  
***General Coordinator PTC 2-1 Lima Perú 2015***
