Course Details

Executive Summary (*achievements/problems/any additional background information*)

PTC Course is a regular feature in Military hospital in Rawalpindi. It was being conducted with the kind courtesy of Prof Minhas, who visited regularly to make the course a successful event. This time course was conducted in Rawal institute of Health Sciences. 25 participants joined the course. They were dental surgeons, anesthetists, surgeons and medical officers. Participants were enthusiastic to learn and carry out the task given during the activities.

How did you prepare for the course(s) (*e.g. printing, venue, invitations*)

Prof Saleem and I (Dr Nadeem) joined to organise the course. All the details about lay out and conduct were discussed. It was two days course on 9th and 10th of Feb 2017. Print materials and certificates were coordinated before hand. Venue was communicated and invitation were distributed to participants. Goat chest was arranged to demonstrate and practice the chest intubation.

Details of Activities (*any special arrangements or timing?*)

Course started with opening address by the course director Prof Shahab Naqvi. Opening address was given by Peof Syed Minhas who also highlaighted the importance of the course and its global perspective. There were regular breaks and interactive sessions to keep the course lively. Lectures were followed by the workshops to learn the practical aspects. The course ended with certificate distribution and group photo.

Outcomes (for each course please include number of people trained, their roles and the change in average MCQ/Confidence Matrix scores. For instructor courses, please also let us know which course materials you used).

25 people were trained. All the participants agreed to enhance the skills regularly and spread the course objectives in their area of influence.

Evaluation Summary (what is your overall view of the success and relevance of this course?)

Overall participants acknowledged the enhancement of clinical skill in their pre and post course oral feedback answers.

Evaluation Report (list the team's answers from the post-course evaluation)

Please supply details of any coverage by press, radio or TV

Nil
